## **Engineering Solutions & Products LLC Service Execution Team Appraised at CMMI Level 3**

**CHANTILLY, VIRGINIA**—February 28, 2017— Engineering Solutions & Products LLC (ESP) announced today that it has been appraised at Level 3 of the CMMI Institute’s Capability Maturity Model Integration (CMMI)®. The appraisal was performed by JFR Consulting.

The ESP Service Execution Team offerings encompass the indirect functional and project management support required for the identification, capture, proposal, award, and execution of contracts. The appraisal team noted that the ESP SharePoint based knowledge management enterprise significantly improves management visibility and staff efficiencies across all operating systems, thereby improving the timeliness and quality of services to its customers while reducing overall costs. This also enables ESP to provide a level of performance that exceeds industry norms, while simultaneously passing their savings on to their clients.

President and CEO, Douglas Fouser commented, “CMMI Level 3 is an example of our ongoing Corporate commitment to quality. As ESP expands our capability set, we will build upon our processes and strengthen best practices. CMMI supports us in the implementation of a common, integrated set of processes which enable the delivery of best in class services, with predictable cost, schedule, and quality. This achievement is paramount to our commitment to continuous process improvement while providing the highest level of services to our clients.”

CMMI is a capability improvement framework that provides organizations with the essential elements of effective processes that ultimately improve their performance. An appraisal at maturity level 3 indicates the organization is performing at a “defined” level. At this level, processes are well characterized and understood, and are described in standards, procedures, tools, and methods. The organization’s set of standard processes, which is the basis for maturity level 3, is established and improved over time.

### **About ESP**

ESP is a leading services and solutions provider in response to acquisition, technology and integrated logistics requirements in the Command, Control, Communications, Computers,

Intelligence, Surveillance and Reconnaissance (C4ISR) technology domain. ESP is a mid-tier Chantilly, VA. based large business with over 500 employees and annual revenue of \$100M. They are an ISO 9001:2008 certified company.

**About CMMI® Institute**

CMMI Institute (CMMIInstitute.com) is the global leader in the advancement of best practices in people, process, and technology. The Institute provides the tools and support for organizations to benchmark their capabilities and build maturity by comparing their operations to best practices and identifying performance gaps. For over 25 years, thousands of high-performing organizations in a variety of industries, including aerospace, finance, health services, software, defense, transportation, and telecommunications, have earned a CMMI maturity level rating and proved they are capable business partners and suppliers.
