## **Engineering Solutions & Products, LLC (ESP) Awarded \$100M+ U.S. Army Contract**

**Chantilly, Virginia** – October 23, 2018 — Engineering Solutions & Products, LLC (ESP) has been awarded a prime contract to support the U.S. Army’s Program Executive Office, Command, Control and Communications Tactical (PEO C3T), Product Manager Tactical Radios (PM TR). This \$100M contract has a one-year base and four one-year options. It was awarded through the RS3 contract vehicle.

The PM TR is the Army’s provider of tactical data radios and waveforms. PEO C3T’s fielded products are used extensively and successfully in combat operations today.

Throughout the period of performance, ESP will provide support in a diverse range of engineering, architecture, integration, and readiness support services that span the total life-cycle of PM TR systems. The required services include system of systems engineering and integration, network engineering, architecture development, interoperability engineering, information assurance, technology transition/insertion, testing, and training.

“ESP is honored to broaden its support of the PM Tactical Radios (PM TR) mission. This new SETA contract complements the support we have been providing to the PM TR Readiness Management Division for over 10 years. We look forward to continuing our partnership of innovation and quality excellence,” said Douglas Fouser, ESP President and CEO.

### **About ESP**

ESP is a leading support services, solution-based provider in response to acquisition, technology and integrated logistics requirements in the Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) technology domain. They are an ISO 9001:2015 certified and CMMI Level 3 appraised company. ESP is currently the #3 contractor by competitively awarded value on RS3.
