

ESP Supports MARCORSSYSCOM Product Manager, Tactical Communication Systems (PdM TCS)

Engineering Solutions & Products LLC (ESP) announced today that it has been awarded a subcontract by Patricio Enterprises under their Seaport-e contract to Product Manager, Tactical Communication Systems (PdM TCS). The objective of this contract is to provide management, acquisition, financial management, and logistics support to PdM TCS and the PdM TCS program teams. In addition to the Quantico-based acquisition team, ESP is also supporting the Fielding teams at Camp Lejeune NC and Camp Pendleton CA. PdM TCS is a key Marine Corps program for ESP to leverage our success in supporting US Army Tactical Radios to share acquisition best practices across the services. This is an important award for ESP as we add the Marine Corps Systems Command to our growing list of Marine Corps customers. ESP is pleased and excited to be part of the Patricio Enterprises team on this key contract. The award is for an eight-month base period with two, one-year option periods extending into May 2017.
